Licensing Examination for Securities and Futures Intermediaries

Paper 8

Securities

Past Questions and Answers (December 2006)

Preface & Disclaimer

These past questions and answers are made available by the Curriculum and Examinations Department of the Hong Kong Securities Institute (HKSI) (these “Past Questions and Answers”) to assist candidates in preparing for the Licensing Examinations for Securities and Futures Intermediaries (the “Examinations”). These Past Questions and Answers are for educational purposes only and do not form any legal and/or expert advice and/or otherwise in whatsoever form by HKSI. HKSI makes no warranties and representations of any materials in and/or content of these Past Questions and Answers. Under no circumstances shall HKSI be liable for any direct or indirect loss or damages caused or alleged to be caused by your use of or reliance on any materials in and/or content of these Past Questions and Answers.

You should be aware that not all the syllabuses and the contents of the corresponding Study Manuals relating to the Examinations are covered in these Past Questions and Answers. You are strongly advised to study all the areas within the syllabus of the respective Examinations before attending such Examinations. You should be aware that the questions and answers in these Past Questions and Answers shall be used for reference only and HKSI does not warrant the relevance of the questions, nor the correctness of the answers provided in these Past Questions and Answers.

You are also recommended to visit the section under the heading “Revision Tools for LE”, which is posted on the website of HKSI, for more details in how to prepare for the Examinations.

HKSI is the sole owner of the copyright and/or any other intellectual property rights subsisting in these Past Questions and Answers. You shall use and/or reproduce and/or store and/or modify these Past Questions and Answers for your own study purpose only and you shall at all times acknowledge the copyright and/or any other intellectual property rights of HKSI in these Past Questions and Answers.

You may make comments regarding the content of these Past Questions and Answers to HKSI in writing. HKSI may select issues with popular concerns and publish your comments on HKSI’s website at its sole and absolute discretion.

Methodology of Developing Questions

Our Institute is committed to providing questions of the highest quality.

Our current examination structure has been benchmarked against those in both developed and emerging markets such as UK, US, Australia, Singapore, Malaysia and China. The syllabuses, study materials, training guides and questions were designed by international consultants specializing in financial education.

The Licensing Examination has been approved by the Academic and Accreditation Advisory Committee of the Securities and Futures Commission (SFC) as recognized industry qualification and local regulatory framework paper for meeting the competence requirements of the SFC.

External consultants are appointed to develop new questions according to specified criteria approved by our Examinations Committee. The aim of these criteria is to ensure that the candidates have thorough understanding of the manuals by testing them at different cognitive levels such as recall, comprehension, application, analysis and evaluation on predetermined weightings of each topic. The new questions are reviewed by reviewers who are market practitioners, legal and compliance professionals, and academics to ensure that the knowledge tested is covered in the study manuals, and that the standard of the questions is appropriate and consistent throughout.

To maintain their quality, the questions undergo frequent reviews and revisions internally which take into account, among others, the average correctness of the questions (i.e., the percentage of candidates in the examination who correctly answer the questions) and candidates' comments, if any, following each examination. In addition to the quality assurance being imposed on the questions, external assessors who are market practitioners, legal and compliance professionals, and academics, are engaged to conduct regular reviews. There are also periodic comprehensive reviews by external consultants on the manuals and questions.

The study manuals and their subsequent updates are the only source of materials for the setting of the questions, so that candidates need to study only those manuals and updates to prepare for the examinations.

It is estimated that the study manuals will require 6 to 11 hours of study time per topic, depending on which paper it is. Candidates may need to spend more or less time, depending on their work experience and background. They are advised to use the Learning Outcomes for each topic as a key to the way they study the materials in each topic, and unless explicitly stated, they could be tested on any aspect of the syllabus.

**Please attempt ALL 40 questions in this question book.
All questions carry EQUAL MARKS.**

<1>.

In 2001, Company XYZ's quick ratio was 1.5 times, but has fallen to 1.25 times in 2002. As a financial analyst, what is your interpretation of this change?
