全球宏觀經濟格局下的離岸人民幣市場發展趨勢

Dear Sir/Madam,

**Invitation to the Webinar of Offshore RMB Market Development in
the Global Economic Landscape**

The global macroeconomic environment has been experiencing turbulence due to virus outbreak recently and globalisation backlash and international political dynamics in recent years. Against this backdrop, would the pace of RMB internationalisation be quickened or slowed down? Would the demand for RMB assets grow or drop? What would be the next initiatives for the development of RMB asset market? In what ways can Hong Kong continue to develop the offshore RMB market and capitalise on the opportunities ahead?
